

Homework

Find 6 objects in your house that you think you could measure with a ruler. Estimate and then measure the length of your object. Record your work in the chart below.

Don't forget to write the unit of measurement next to your answer (e.g., cm)

Object 1: _____ Estimated length: _____ Actual length: _____	Object 2: _____ Estimated length: _____ Actual length: _____
Object 3: _____ Estimated length: _____ Actual length: _____	Object 4: _____ Estimated length: _____ Actual length: _____
Object 5: _____ Estimated length: _____ Actual length: _____	Object 6: _____ Estimated length: _____ Actual length: _____
