

Bishop Chavasse Primary School: Whole School Curriculum Overview 2025-2026

The content covered across the curriculum at Bishop Chavasse is:

- broad in **scope** in order to meet and exceed the demands of the National Curriculum across all subjects. Pupils are regularly encouraged to draw comparisons across different units in order to support pupils in developing in-depth knowledge of diverse reference points drawn from around the world.
- **rigorous** in order to ensure up-to-date worldviews that children develop, as current views are pursued, and new questions are introduced and posed to and by students. Links between across subjects are drawn regularly to aid the children's knowledge and skills.
- highly **coherent** so that intricate links are built, multi-directionally, across subjects. This ensures that no subject or unit sits in isolation, yet the integrity of each subject is not compromised. Clear links are highlighted throughout each unit and year group.
- carefully **sequenced** to ensure that children are consistently building upon prior knowledge and developing a more in-depth understanding as they progress through the subjects and the school. This enables pupils to build comparisons and reach critical judgements across discrete and broader lessons and units.
