

English

Nouns can be broken down into four main categories:

Common nouns - people, places or things

Proper nouns - special names given to people or things

Collective nouns - groups or collections of things

Abstract nouns - feelings or ideas that you cannot touch

Can you draw a table with 4 columns, label each column using the 4 different categories, and sort these nouns into the correct columns?

memory	A bowl of rice	knowledge	A crowd of people
London	doctor	guitar	Ferrari
A parliament of owls	loyalty	Queen	feather
airport	England	insect	luck
country	patience	A packet of crisps	breakfast

Challenge: Can you write three sentences, each using one or more of these nouns to create an expanded noun phrase? An expanded noun phrase uses one or more adjective to add more detail. For example: The soft, tickly feather was used by the excited boy to play with the young kitten.
